

# Patient-led Advisory Event Guiding Parkinson's Research

Have you been diagnosed with Parkinson's disease?  
Would you like to lend your voice to Parkinson's research?

Sunnybrook is offering patients an opportunity to guide research related to the care of Parkinson's symptoms

This study begins with a brief questionnaire (10 minutes). Some patients may be eligible to participate in the second stage of the study which includes a candid discussion at an advisory event.

This goal of this research is to ensure inclusiveness and equitable access to new technologies that treat symptoms associated with Parkinson's disease.

If you are interested, please click [here](#) to complete the questionnaire or scan the QR code.

*Funded by Parkinson Canada*
