

Parkinson's Disease Awareness

PARTICIPANTS NEEDED

Study: Determine if KAATSU effects *tremors* in those living with Parkinson's disease (PD)

Inclusion criteria

- PD diagnosis from a doctor or neurologist
- Living with an arm/hand tremor on one side (or both)
- Willing to come to the Concordia Loyola Campus 3 times total over the course of 1 month for 45-60 minute testing sessions

BENEFIT

Help determine if KAATSU Blood Flow Restriction impacts tremors in individuals with Parkinson's disease
